

Our on-line, 3 credit courses, are offered by Dellecave Educational Institute Instructors. Our instructors are experienced classroom teachers and make sure the content of each course is focused, relevant, and immediately applicable to improving the classroom experience for teachers and students.

All students registering for an on-line class must have access to a computer and printer, word processing and spreadsheet software compatible with Microsoft Office. If necessary, the course description will indicate any other unique technical requirements. Students must also have a working e-mail account and be familiar with sending and receiving e-mail, and using the internet to find resources.

When a course begins, students are directed to a course website where they can print or download the course syllabus, assignments, course requirements and reference material. All assignments should be well prepared and include a lot of well chosen examples, supporting materials and references. They should demonstrate a mastery of all technical concepts and correctly answer all parts to all questions.

At the end of a course, Certificates of Completion will be mailed to each student that has successfully completed the course. You can register for an on-line class over the phone with a credit card or by mail with a check or credit card information. Full payment is due at the time of registration.

Our faculty is experienced, qualified, and friendly. While we leverage technology to bring you these classes, rest assured that our instructors take an active role in the classroom. Endicott College, in all of its programs, supports an ideal of applied learning. Our goal is to make sure that the course materials are focused, relevant, and immediately applicable to the workplace. Additionally, students are strongly encouraged to engage the instructor and their fellow students in thoughtful and spirited discussion, further advancing the learning. Students and faculty learn from each other in a positive and nurturing environment, fully supporting the "Endicott Experience".

The primary mission of Endicott College is to instill in students an understanding of and an appreciation for professional and liberal studies. Deeply woven within this philosophy is the concept of applied learning, which has been the hallmark of Endicott. This mission is also an integral component of Endicott Online classes.

=====

Welcome to Endicott Online, the Internet based learning initiative from the Endicott College School of Graduate and Professional Studies, located in Beverly, Massachusetts. Our mission is to provide you a high quality, adult-oriented education as part of your professional and personal growth.

Our web-based, 3 credit, instructor led courses are delivered online by Endicott College faculty. Students access a secure classroom where they download weekly lectures and additional course materials, post assignments, and participate in class discussions. Experienced online instructors integrate text, lecture, and discussion to ensure our online students fully share in the course objectives.
